

Marc Olmos Cabezas

Senior Frontend Developer
Mollet del Vallés, Barcelona
olmoscabezasmarc@gmail.com
[606872046](tel:606872046)

Academic Background

Master in High Performance Web Programming
URL (2020 - 2022)

Degree in Business and Technology
UAB (2016 - 2020)

Professional Experience

Senior Frontend Developer

Circontrol (05/2023 - now)

Tasks

Conduct technical analysis and provide accurate effort estimations. Define architecture improvements focused on scalability and maintainability, establish team-wide best practices, and introduce automated linting and formatting workflows using ESLint and Prettier. Manage progressive Angular upgrades from v17 through v20, coordinating updates to LTS releases.

Projects

Contributed to internal initiatives including: WebSetup — a web dashboard for configuring EV chargers; a touch-screen web application deployed on company chargers to manage user charging workflows; a middleware service integrating the backend with charger UI applications; and a Circutor migration project to replace SCADA with a Grafana-based web solution for charger data management.

Methodologies

Agile, Scrum

Stack

Angular (up to v20 LTS), RxJS, Signals, NestJS, ESLint, Prettier, HTML5, CSS3, JavaScript, TypeScript, PrimeNG, Git, Jest

Fullstack Developer

Deloitte (11/2021 - 05/2023)

Tasks

Hold client meetings, Create and maintain Angular projects, Technical analysis, Development time estimation, Testing

Projects

OVT (Virtual Procedures Office) for Barcelona City Council

SEAT — Java application managing vehicle campaign states and mobilization lifecycle from production to dealerships

Methodologies

Agile, Scrum

Stack
